## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 1-5 are objected to because of the following informalities: in claim 1, the word “A” at the beginning of each section has been capitalized. Claims are required to be presented in single sentence format. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 8, 16 and 17, “the opposing end of said bottom section” and “an opposing end of said bottom section” are each unclear with respect to what the “end” is being claimed as opposed to, i.e. the end of the bottom section opposing what? These phrases are also unclear in that the term “end” is also being used to define portions of the partition structure.

In claim 1, lines 8 and 9, “each of said ends containing...” is unclear insofar as the previously defined “opposing end” does not appear to include a slot as disclosed.

The following each lack antecedent basis in the claims, i.e. each is only inferentially set forth: claim 1, lines 8, 12, 13, 18 and 19, “the opposing end of said bottom section”, “the two outermost sub-sections” and “the two outermost sub-sections”.

The following are each a double inclusion of an element, i.e. the element is being reintroduced into the claims: claim 1, lines 14 and 20, “a bottom sub-section” (two occurrences) and claim 5, “4 sub-sections” (two occurrences) (the 4 sub-sections being referred to were previously introduced in claim 1).

In claim 1, lines 12, 13, 18 and 19, "the two outermost sub-sections" (two occurrences) is unclear with respect to which sub-sections are being referred to, i.e. the outermost sub-sections on the bottom section, first side or second side (with respect to the second occurrence).

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lapoule et al (figs 1 or 3 emb.).
